27 - DOME PAPERWEIGHT, CRYSTAL

Deep etching is a glassware and ceramic sand-carving process that produces the most beautiful and long-lasting etched design. We deep-etch each piece by hand using today's technology with a technique that has been around for centuries. Because our items are deep etched, you can use them with confidence that their design and beauty will last through generations. Unlike designs created using chemical or acid etching, our designs will not wear off through everyday use or cleaning, even in your dishwasher.

83 - BUSINESS CARD HOLDER,  
JADE GLASS

Artistic Glass Design offers custom design creation that can be etched onto almost any type of glass or acrylic. We also do monogramming and personalization with names, dates, and phrases in a variety of fonts. These can stand alone or can be combined with collegiate or custom logos. Because of the nature of sand carving, we work closely with customers to design representations of their ideas or logos that can be reproduced successfully with the etching. To request more information or to place a special order, please call us at 1-888-777-8781, or email us at [artisticglassdesign@msn.com](mailto:artisticglassdesign@msn.com). We take pride in providing you with beautiful and unique deep-etched glassware.
